

Meeting Date
April 30, 2013

AGENDA	
Section	CONSENT
Item No.	III, D, 5.

**AGENDA REPORT**  
**BREVARD COUNTY BOARD OF COUNTY COMMISSIONERS**

SUBJECT:	DISTRICT 2 CANAL DREDGING COMMITTEE
DEPT/OFFICE:	Chuck Nelson, Commissioner, District 2 Commission Office

Requested Action:

It is requested that the Board of County Commissioners adopt a Resolution re-establishing the District 2 Canal Dredging Committee.

Summary Explanation & Background:

Background

On April 4, 1995, the Board adopted Resolution NO. 95-103 establishing the District 2 Canal Dredging Committee.

On March 7, 2006, the Board adopted Resolution NO. 06-13 specifying the allocation of District 2 MSTU funds for the purpose of maintaining canals and channels.

On December 16, 2008, the Board adopted Resolution NO. 08-324 terminating the District 2 Canal Dredging Committee because the MSTU dredging allocation through the year 2012 had been committed for canal dredging debt repayment.

The Resolution provided for the Committee's re-establishment when additional funding became available.

The debt has now been repaid and funding is now available for additional dredging and it is therefore appropriate to re-establish the Committee.

The attached Resolution describes the membership and duties of the Committee and provides technical and administrative support through the Office of Natural Resources' Boating and Waterways Program.
